We guarantee all stock to be first class. However, there are causes for failure over which we have no control, and we can assume no responsibility after merchandise is delivered to transportation company. All claims for breakage, loss, etc., should be made directly with transportation company. We do not make COD shipments, and do not run a credit business, all sales cash with order. We advise shipping all plants and fish by Express, any plants shipped via Parcel Post must be postage prepaid by the customer.

We offer FREE, with any order for Water Lilies and Aquatic Plants, received before June 1st amounting to \$5.00 or more, one free pink Water Lily, if you will mention same on your order.

One of our Greenhouses

- Our Economy Special; One each, Pink, White and Yellow Hardy Water Lily..... \$2.50
- Our Tropical Trio; One each, Panama Pacific, Blue Beauty and Mrs. Pring White..... \$5.00
- Marliac Trio, The well known Marliac White, Chromatella, and Marliac Rosea..... \$3.50

## Hardy Water Lilies

Blossoms of Hardy Water Lilies float on the water, or are carried an inch or two above the surface. These lilies may be grown in tub, pond, pool, or half barrel, as best suits your convenience. The only requirements are water, sunshine, and good rich soil. If in an open pond, which does not freeze clear to the bottom, the roots will live without further care. If in tubs or pools, roots must be removed for the winter.

### WHITE WATER LILIES EACH

Gladstone, large clear white, grows strong tubers and blooms freely	\$2.00
Marliac Albida, a good dependable variety	1.50
Odorata Gigantea, produces lots of foliage, fair amount of blossoms	1.00

WHITE CLOUD MOUNTAIN FISH—one of the newer importations from far off China. A rival of the Neon. Med. \$1.00 pr., large	1.50

## SCAVENGERS

One of the most important factors in successful aquarium keeping is having scavengers of the right type and of the right quantity. Too often this fact is neglected and more and more fish are added to an aquarium with no thought given to the extra requirements in keeping the aquarium balanced.

When you order fish, give thought also to the house cleaning needs of your aquariums.

CORYDORAS—A small armoured Catfish  
which is a perfect scavenger and will not  
bother the tiniest fish or rile the aquarium  
water (EACH) .....

\$1.00 & \$1.50

## CARE OF YOUR ORDER

## UPON ARRIVAL:

If fish, it is well to have one or more aquariums ready for the new fish. These should be partly filled with seasoned water (aged water). Taking the fish from the shipping can they should be FLOATED, in jars containing the same water in which they were shipped, in the prepared aquarium. The remaining water in the can should be strained and dumped into the aquarium. When the temperature is the same in both the aquarium and floating jars, the fish may be released into the aquarium. They should be kept in this aquarium several days, away from your other fishes.

A teaspoon of sea salt to each 5 gallons of water makes an effective tonic for the fish if they appear sluggish.

# AQUARIUMS

## GREEN ENAMELED

Width	Length	Height	Gallons	Price
